

My novel, Running Out of Time, is about two people, John Smith and Carl Henderson, who live in a world where time is the currency. In their world they are given exactly twenty five years plus ten years for expenses. When that time runs out... you die. In this novel, John and Carl are very against this and will attempt to destroy the National Chip Control Center, located in the Pentagon, where the chips are controlled. To find out if they will achieve this goal and live to tell the tale make sure to read my novel, Running Out of Time, by: Scott A.
